

ORIGINAL

BEFORE THE  
FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON, D.C. 20554

FILED/ACCEPTED

APR 11 2007

Federal Communications Commission  
Office of the Secretary

In the Matter of )

Amendment of Section 73.202(b)  
Table of Allotments )

New FM Broadcast Station  
(Charlo, Montana) )

MB Docket No. \_\_\_\_\_  
RM- \_\_\_\_\_

To: Office of Secretary  
Attn: Chief, Audio Division  
Media Bureau

**PETITION FOR RULEMAKING**

Spanish Peaks Broadcasting, Inc., ("SPB") by this petition and its associated FCC Form 301 application, hereby petitions the Federal Communications Commission to initiate a rulemaking proceeding to amend the vacant FM Table of Allotments (§73.202(b) of the Commission's Rules) in order to assign FM Channel 251C3 to Charlo, Montana, as its first local transmission service as follows:

<u>CITY</u>	<u>PRESENT</u>	<u>PROPOSED</u>
Charlo, MT	---	251C3

According to the 2000 U.S. Census, Charlo has a recorded population of 439 persons. Charlo is a bona-fide community for allotment purposes: according to the Census, the community is a Census Designated Place, generally sufficient for allotment purposes. Charlo

No. of Copies rec'd  
List ABCDE

0+4  
MB 07-23 1

has a its own post office and zip code (59824), fire department, ambulance service, grocery store, elementary school, high school, places of worship, community centers, senior citizens center, public museum, bars, restaurants, childcare facility, and numerous other businesses. The community information included in Exhibit 1 clearly demonstrates that Charlo is a community deserving of radio service.

As indicated in the attached channel spacings study in Exhibit 2, Channel 251C3 can be assigned to the community of Charlo at the following reference coordinates where all minimum distance separation requirements of §73.202(b) are met:

N47-32-20, W1 14-08-52 (NAD 27)

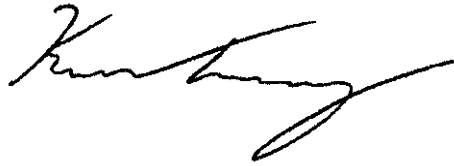

A reference site restriction of approximately 11 kilometers north of Charlo's community center coordinates is required for the proposed allotment. As can be seen in the City-Grade Coverage Map included in Exhibit 3, from the reference site, the principal community contour coverage requirements of §73.315 are satisfied.

Exhibit 4 is a Gain Area Study map indicating that 23,608 persons in rural areas of western Montana will receive a new aural service which includes the 439 residents of Charlo who will receive their first local transmission service. The **70** dBu contour does not encompass any portion of an Urbanized Area.

In the event that Channel 251C3 is allotted to Charlo, Montana, SPB will participate in an FM Auction to acquire the station and, if authorized, will build the station promptly. For the foregoing reasons, the Commission should consider adding channel 251C3 at Charlo, Montana. I verify pursuant to Section 1.52 of the Commission's Rules that I have reviewed this document and that to the best of my knowledge, information, and belief, there are good grounds to support it.

Respectfully submitted,

SPANISH PEAKS BROADCASTING, INC

A handwritten signature in black ink, appearing to read "Kevin Terry", written over a horizontal line.
